present:

MICRO

SHAKESPEARE

PRESENTATION

Inspired on our show "Capses", Micro-Shakespeare is a request of National Theatre of Great Britain. We are the first Catalan company who produces a show jointly with them.

Toti Toronell (Laitrum Teatre, Cia. Toti Toronell) has created the drama and play-writing and Quim Domene (La Fàbrica del Riu) has designed and decorated all the sets.

Toti Toronell (clown) and Quim Domene (visual artist) have collaborated for the first time in this show. They two work in closer spaces of the textile factories of Fluvià when passing by the town La Canya, and they two have large international careers.

MICRO-SHAKESPEARE: five theatres conceived as five artworks. A different work of the author is played in each box-theatre. The spectator is going to listen to the show through earpieces during the 8 minutes of each work.

The works represented are: "Hamlet", "Macbeth", "Romeo and Juliet", "The Tempest" and "A Midsummer Night's Dream".

LOVE

THE SHOW

Puppet Theatre, participative and interactive theatre.

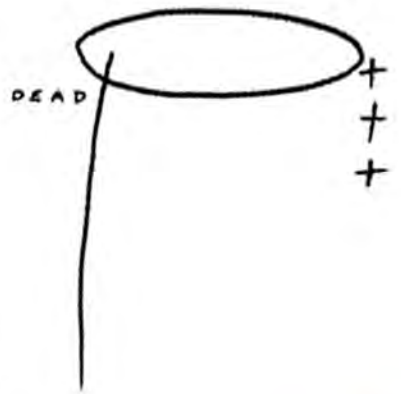

Installation of 5 boxes with headphone / 8 minutes by micro-theatre / 10 languages: english, french, spanish, catalan, basque, german, holland, chinese mandarin, chinese cantonese, portuguese.

Maybe you are interested on what you are going to find inside the boxes. Well, you are going to find works of Shakespeare condensed in... 8 minutes!

The spectator behind the box-theatre is going to receive instructions through the earpieces and is going to move the objects following the instructions without knowing why he/she does what he/she is doing.

The spectators who are in front of the box-theatre watching the show are enjoying a work of Shakespeare through the earpieces. The story becomes real thanks to the movements of the "actor". Shakespeare as you had never seen it before... with sense of humour, love, scheme, death, revenge, popcorns, public converted on actors and a lot of ovations.

Micro-Shakespeare: a very difficult to explain show, but very fun of performing!
