

GENERAL INFORMATION

Duration of the show	35 min
Space	Outdoors in a square, a park, a field, a street...
Performances	Usually during the day, if at night, a general wash to light the space.
Audience	All ages
Touring party	3 people on tour

GET IN

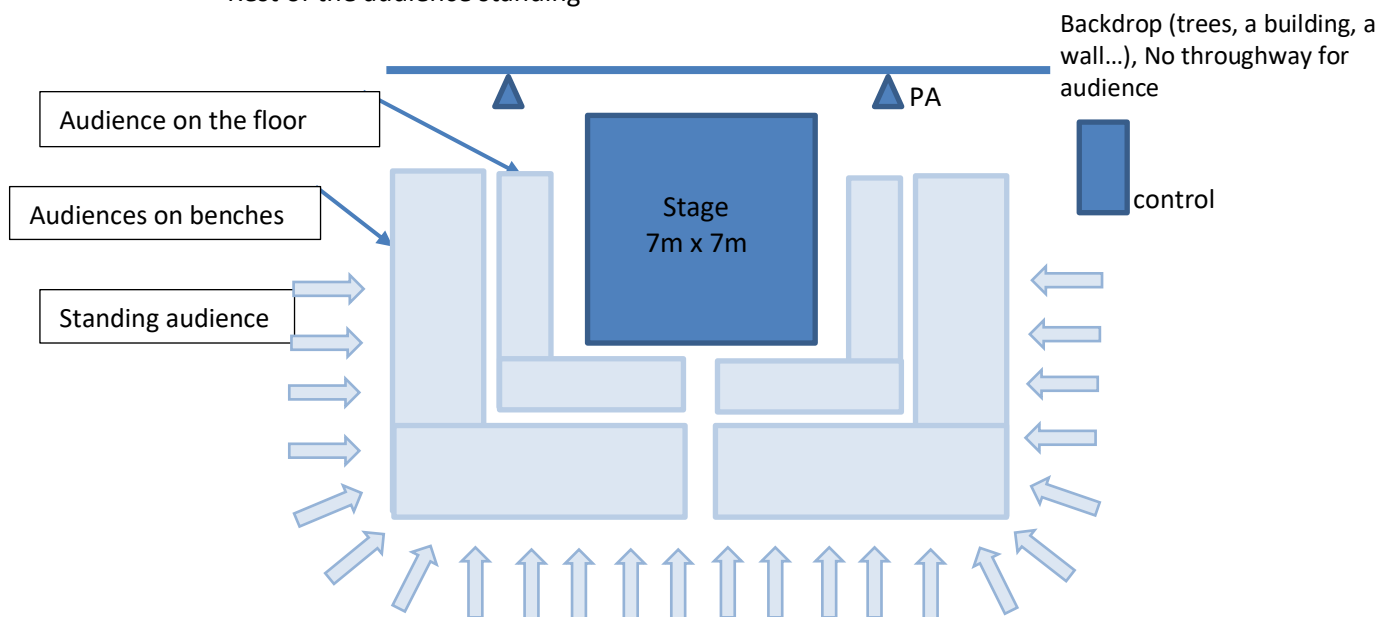

Access to the space 3 hours before performance time
Sound system to be rigged by the organisation prior to the company's arrival
Access to running water near the performance area, we use 40 litres per show

SOUND

Adequate PA for the space, minimum 2000W
Enough cabling to have the PA 8m apart and to reach the control
Mini Jack input for laptop (company brings the laptop)
A desk and a chair for the tech control

PERFORMANCE AREA

- **Floor level, no need for a raised stage, minimal inclinations**
- Optimum performance size: 8m x 8m
- Minimum performance size: 6m x 6m
- The performance area needs to be clean
- Recommended setup for the audience (300-400 people):
 - First few rows of kids sitting on the floor on carpet/rugs, minimum 1m from stage
 - Two rows of benches or chairs
 - Rest of the audience standing

*Not to scale

DRESSING ROOMS

- For 2 performers, access to the company at all times, or a copy of the key to be given to company
- With showers and towels
- For more than one show per day, laundry facilities will be needed
- Hospitality: Drinking water. Tea, coffee, juices and fruit will be very welcome.

TRANSPORT OF SET

The set travels as checked in baggage with the company, in three 15kg bags.
